Proposed alterations to traffic-flow through Bengeo

You will no doubt have been as dismayed as were your committee to have seen in the Hertfordshire Mercury of August the sixth, the report of the East Herts Works Committee decision to make Traffic Regulation Orders prohibiting traffic turning right into Cross Road and Tower Street. It seems that this will result in traffic using the Avenue as a through route to Hertford North Station. Letters were written to both the Mayor, Councillor Roger Martin and Mr. D. J. Anstey, Principal Chief Officer of East Herts District Council strongly expressing our concern.

The letter was timely, even a little premature, as a public notice of intent will be appearing in the local press in the near future.

Councillor Martin has kindly agreed to meet a delegation from your committee to explain in more detail the council's reasoning.

We will keep you informed by means of the Newsletter on progress. We are assured that nothing can take place for at least 12 months.

BENGEO YOUTH CLUB

This Youth Club has about 60 members and meets Wednesdays at the Church Hall, Duncombe Road. In my 5 year association with the Club the members have worked hard to save money to enable them to have a Club Room. When this project failed the money saved jointly with the Bengeo Tenants Association was given to Holy Trinity for the refurbishment of the Church Hall. Some £350 belonging to the Club to be used for the new Youth Hall, was handed over to Hertford County Hospital for a new bed. The Club has worked for the Community, but unless we have a Management Committee the Club will be forced to close down. The A.G.M. is to be held at the Church Hall on Tuesday, 19th October, 1982, at 8 p.m.

Please note this date in your diary and make an effort to support the Club.

B. Hall, Chairman.

ADVANCE NOTICE

Make a note of the date

25 FEBRUARY 1983

Pete Skiffens has been booked for a square dance on that evening.

Venue and other details will be announced later.

CENTRAL HEATING IN THE WICK

The central heating system installed in The Wick is unusual in its design - indeed it could be said unique since that particular system is no longer used. The Association has been given an almost new heat exchanger for use in emergencies. David Black (Tel. 57285) would be interested to hear of any problems with the system or difficulties in getting spares or repairs.

I regret to say that a few inaccuracies crept in the local information in our last newsletter.

MARKET DAYS
